

## Labels for Props, Lighting, Sound and Other Equipment

All our labels are custom printed with text, logos (if they are small) and barcodes/numbers.  
Please call/email to request FREE samples.

**Please note: All Adhesive labels need 24-48 hours to fully adhere. The longer they are on the surface the better. Please allow enough time before testing the how well they stick.**

### Standard Adhesive Labels

ThermalMark Versa2 Plastic labels - good for applying to plastic, wood, painted materials, shoes, purses, etc. We offer 2 sizes - 1.5" x 0.5", 1.9" x 0.75". To identify a prop or set piece without sticking the label directly on it you can use **Tyvek Shipping labels** (available in our store) or Manila labels (available from office supply stores) to hold the adhesive label while in storage.

Teapot with Tyvek tag.

### Extra Durable

This is a special 2-part label: a white polyester label and a clear polyester laminate (aka overlay). These labels are extremely durable and resistant to harsh chemicals, abrasion, etc. The white label is printed with your company name and barcode. You apply that to your equipment first. Then you place the clear overlay on top of the label to provide extra protection to the label. The printed label is 1 7/8" x 7/8". The clear laminate is 2 1/8" x 1 1/8".

Extra Durable label

### Industrial

These labels are similar to our Standard Adhesive labels but have a very aggressive adhesive to stay on rough surfaces like wood, metal, felt. Size: 2" x 0.75"

Industrial label on particle board

### Heat Tolerant Labels

Heat tolerant label on Gobo

Polyimide Labels with High Temperature Adhesive. Able to withstand heat of 450 °F for 20 minutes. Size: 1.5" x 0.5". Please test these labels thoroughly before applying to your equipment.

### Cable Labels

Self-laminating labels designed to wrap around cables and cover the printed area with a very durable clear plastic. They come in two sizes: 1.6" x 1" (for cables up to .25" diameter) and 4" x 1" (for cables up to .95" diameter).

Cable Labels - wrap around

**Costume Inventory Resources is not responsible for loss of tags or damage caused by applying tags.**

## Suggestions on Labels to use for Equipment

Material	Adhesive	Extra Durable	Industrial	Cable	Heat Tolerant
Plastic	Yes	Yes	Yes		
Metal (Raw)	Yes	Yes	Yes		
Metal (Painted)	Yes	Yes	Yes		
Wood (Raw)	No	No	Yes		
Wood (Painted)	Yes	Yes	Yes		
Wood (Varnished)	OK	Yes	Yes		
Cables	Not Recommended	Not Recommended	Not Recommended	Yes	No
Lighting Fixture - that get HOT	No	No	No	Not Recommended	Yes
Lighting Fixtures - Not hot	Yes	Yes	Yes	Can be attached to cords or cables	OK
Leather/Vinyl cases	No	Yes	Yes	No	No
